LEDGEGEAR 4X4

Off-Road Parts Sample & Packaging Checklist

Buyer review worksheet. Not a certificate or inspection report.

Project / RFQ	**Supplier / sample ref**
Part / SKU	**Vehicle application**
Inspection date	**Reviewed by**

1. Product identification

- ☐ Confirm part number, revision and approved drawing
- ☐ Record vehicle make, model, year range and trim
- ☐ Check sample and packaging match quoted kit contents
- ☐ Confirm supplied bolts, brackets, labels and accessories

2. Fitment, materials and workmanship

- ☐ Verify key dimensions, holes and mounting interfaces
- ☐ Confirm material grade, thickness and surface finish
- ☐ Inspect welds, burrs, sharp edges and visible defects
- ☐ Confirm corrosion protection and color consistency
- ☐ Document clearance, interference and installation notes
- ☐ Photograph any nonconforming areas

3. Packaging and labeling

- ☐ Verify unit count and packaging configuration
- ☐ Check product / SKU / variant labels
- ☐ Review transit protection for edges and painted surfaces
- ☐ Confirm carton markings and handling instructions
- ☐ Check barcodes and private label artwork if applicable

4. Approval and next actions

- ☐ Record open questions and requested corrective actions
- ☐ Decide: approved / conditional / rejected / re-sample
- ☐ Confirm responsibility and due date for follow-up

Result ☐ Approved ☐ Conditional ☐ Rejected ☐ Follow-up needed

Record actual acceptance criteria separately; confirm specifications with the manufacturer.
